

48 Foot Bins Looking South

Horizontal Unloads on 48 Foot Bins

2 North Bins have 8 inch unloads

2 South Bins have 10 inch unloads

All 48 Foot Bins have Power Sweeps

48 Foot bins have spreaders

30 foot (further) and 25 foot bins (closer)

Both have new floors and 8 inch unload augers with power sweeps

Both have smaller fans. Best used for soybeans but can handle corn.

Floor and power sweep inside the 25 foot bin

Fans on small bins

40 X 100 Quonset Shed with overhead door

Door is 14 feet tall and 24 feet wide

Quonset shed and 48 foot bins looking South
The smaller bins are between the shed and large bins

All electric lines are buried underground

Parcel 1 Tile outlets at the south end (beginning point) of the drainage ditch

Well and water hydrant. Pressure tank inside shed.
